

Take PL down.  
Synchronize time with WWB on 10.000 MHz (30m)

Mercury Amateur Radio Association Net

QST QST QST, This net is for the Los Padres Chapter of the Mercury Amateur Radio Association. This is a directed net. Please so not transmit unless directed to do so by your Net Control station. This net meets every Tuesday at 2000 hours local time on the Castro Peak repeater.

Your Net Control station this evening is \_\_\_\_\_ and the name is \_\_\_\_\_.

The mission of this Chapter is to unite those amateur radio operators who have a common interest in communications, and to provide training, support and encouragement to radio amateurs who wish to serve as emergency communicators.

Is there any priority traffic?

Are there any routine announcements, bulletins or traffic for the net?

(Make your announcements here.)

Check out the Mercury Western 40m net, Saturday mornings at 0715 hrs. on 7.228 MHz.

Check out our own 40m MARA net Tuesdays at 1930 hrs. on 7.232 MHz (mention those who checked).

Make sure you check out announcements and other information on the Chapter webpage at "MARA-Hams.org". MARA membership applications are available on the editorial page of the webpage.

Are there any early check-ins for the net who cannot remain on frequency until roll call? Please indicate if you are on emergency power.

(State your "Trivia Question" here.)

The roll call will proceed in (reverse) alphabetical order by call sign suffix. Please indicate if you are on emergency power and feel free to share any comments you may have for the net. (Use reverse order on even numbered weeks - 2nd & 4th Tuesdays.)

CALL THE ROLL. (See separate roster sheet.)

Are there any late or missed members wishing to check-in?

Are there any visitors wishing to check in?

This concludes the roll call for the Los Padres Chapter of the Mercury Amateur Radio Association. Those with traffic please remain on frequency after the net.

(Give answer to the Trivia Question here.)

We thank the Agoura Repeater Association (and DCS) for the use of their repeater for our net.

The frequency is now clear at \_\_\_\_\_ hours. This is \_\_\_\_\_ returning the repeater to normal operations. "73" all -

Put PL back up.
